ATT E - R7 Senior Staff Lunch Topics.docx

Cecilia,

We're scheduled to share our thoughts during the lunch with Bob tomorrow on post VERA/VSIP SF site assessment work. Part of this is communications around your prioritization. Do you have time to tag up tomorrow a.m. to discuss?

Superfund Site Assessment Post VERA/VSIP

(Cecilia Tapia: Superfund Division Director, Curtis Carey: Office of Public Affairs Director)

The Region 7 Superfund Division is losing approximately 17 staff. As a result the Division is prioritizing work as follows:

- Priority shall be given to sites on the NPL, active Removal sites and sites where the Agency has obligations under existing Orders.

- To continue working on those sites with the highest human health risks, we will be disinvesting resources assigned to non-NPL sites. In addition, we will ensure all sites referred to us for removal action consideration will have exhausted all other state response mechanisms

- Communication to community and state stakeholders, with OSWER and OPA assistance, will need to be developed.

Yes! Here is the attachment for the Senior Staff lunch which I believe is what you are looking for. If you'd like the entire package, just let me know and I'll send it your way.

Amanda,

Do you have the attachments that describe each event? I'm looking for the one that describes what Cecilia and I have to present to Bob.

Hi Curtis & LaTonya-

Not sure if you need them, but attached are the final talking points for the all-hands tomorrow along with a list of the retirees that will be recognized. The only change to the talkers is the inclusion of the # of employees who have accepted V/V.

Also attached is the final agenda for your reference (only change is a room change for the last session).

Please let me know if you have questions.

Thanks!

Amanda
